Dear Students,

We need your assistance in completing a brief survey about your intentions related to getting vaccinated for COVID 19. Please complete by Tuesday March 23.

[Click to take the survey.](#)

The State of Connecticut intends to allow people ages 16 to 44 to be eligible for the vaccine on April 5. We are working with our health care partner, Hartford HealthCare, to develop plans to get students vaccinated before the conclusion of the spring semester. There is no guarantee, but we are doing everything to make this possible.

To help us plan, it would be helpful to know your intentions regarding the COVID 19 vaccine. Your responses to the survey will help with immediate planning as well as long-term academic and residential planning for fall 2021. This survey is going to all students regardless of where you currently reside---on campus, living in Hartford, or remote learning somewhere else.

Trinity College is not requiring students to get vaccinated at this time. We do believe that the vaccine is a critically important way to keep you, your family, and our campus community safe. By having more people vaccinated, we will be able to open up our residential campus to allow for more learning and social experiences for students, staff and faculty. In the coming weeks, we will have more information to share with you regarding the vaccine.

Thank you for completing this survey. And thank you for all your efforts to keep our community safe.

Sincerely,

Joe DiChristina, Vice President for Student Success and Enrollment Management  
Jason Rojas, Chief of Staff and Associate Vice President for External Relations
